Donors Beware: With increasing levels of investment, the rewards increase dramatically. Extreme Builders do more than buy the "bricks and sticks;" they get to know the family, provide encouragement to them, sweat alongside them and share in their joy and hope for the future. Habitat builds more than houses, Habitat builds lives. All levels of giving help to change the lives of program participants.

All levels of support are appreciated and non-sponsor volunteer days are also available on a limited basis. Pittsburgh Habitat for Humanity is a grass-roots organization built by built by the efforts of many individuals with one single purpose: to provide safe, decent, and affordable housing to families in our community.
